Packing and Shipping:

Metal Coffee Tin Packaging and Shipping:

The Metal Coffee Tin should be packaged for shipping in a cardboard box with plenty of padding material. The padding material should be enough to protect the Metal Coffee Tin from any shock, vibration, or impact during transit. The box should be properly sealed to ensure it does not open during transit.

The box should be clearly labeled with the shipping address and a description of the contents. The box should also include the handling instructions, such as "Fragile" or "This Side Up". The package should be shipped with a reliable carrier that offers tracking information and insurance.
